

Natural Beauty and  
Exceptional Quality.

## Let your deck shine

With Cascadia decking, the unsurpassed natural beauty of Western Red Cedar is matched with TFP's renowned manufacturing quality. This creates a product that is beautiful, functional and eco-friendly. Cascadia decking is made from a 100% renewable and sustainable North American resource unlike PVC and composite decking which is largely made from non-renewable imported petroleum products. Third party life cycle analysis clearly shows WRC decking as the best environmental choice your deck; WRC significantly outperforms substitute products in every environmental measure.

Cedar decking is low maintenance, naturally resistant to decay and insects, and has decades of proven performance. Pair that with Terminal Forest Products' excellent reputation for quality and you have the best possible product for your deck.
